

## MHE 3

### MHE, MHD heater fan used on the construction site

■ Mobile heaters are an indispensable aid on the construction site in winter. Whether used to heat the contractor's shed, to dry damp inner rooms or to heat the working area on the construction site - MAICO MHE and MHD heater fans can be put to universal use.

### Guide values for construction site

#### (specific heating power 150 W/m<sup>2</sup>)

MHE 3 for approx. 20 m<sup>2</sup>  
MHD 5 for approx. 33 m<sup>2</sup>  
MHD 9 for approx. 60 m<sup>2</sup>  
MHD 15 for approx. 100 m<sup>2</sup>  
MHD 20 for approx. 133 m<sup>2</sup>

### Guide values for poorly insulated building

#### (specific heating power 100 W/m<sup>2</sup>)

MHE 3 for approx. 30 m<sup>2</sup>  
MHD 5 for approx. 50 m<sup>2</sup>  
MHD 9 for approx. 90 m<sup>2</sup>  
MHD 15 for approx. 150 m<sup>2</sup>  
MHD 20 for approx. 200 m<sup>2</sup>
