

WS 600

Operator unit for WS 600

- The WS 600 room air system is remotely controlled using a separate operator unit. The ventilation levels or day/week programs etc. can therefore be set.
- The operator unit is connected to the central device using a shielded 5-core cable. It has a maximum length of 100 m. The operator unit can then be fitted virtually anywhere in a detached single-family unit house.
- Dimensions of operator unit:
 - Width: 150 mm
 - Height: 80 mm
 - Depth: 32 mm
